

Bioresonance Mk 6 – XXX Pro

Features

30 Watt Bioresonance Output.

1 to 10,000 Hz frequency adjustment .(100 to 2000 Hz on Mk 5)

594 Pre-programmed treatments

100 User- programmable treatments

210mm wide(without handle),105mm high,and 280mm deep.

LCD display light.

Removable handle for carrying or tilting on bench.

Case vents and micro fan for cooling.

Beeper for pushswitch presses and acupuncture sensor.

Adjustable "Deviation" control for programmable frequency sweep across centre frequencies.

Accessories(all can be used with Mk6)

Laser unit - 3mW ,670nm red laser for skin and acupuncture point treatments.(Green also now available)

Bioresonance modulated coloured light units for general bathing of tissue with Bioresonance light.(red,green,yellow,orange,blue, Infra-Red)

Energiser unit for Bioresonance energised water and homeopathic solutions.

Aqua unit for Bioresonance energised bathing liquids (immersion)

Micro Applicator for small or difficult to reach areas.

Acupuncture sensor / electro treatment unit (available soon).

Bioresonance Mk 6 - XXX Pro Instructions

Power on

Press push button power switch on rear panel.

Green and red LED arrays should pulse up and down and lowest green LED segment should stay lit.

Two short beeps should sound to show internal power circuits are OK. If beeps carry on, there is a fault and the unit should be turned off and returned for investigation.

Message LCD display should show "CYMATICS Mk 6" briefly before showing "Program?"

Programs

Enter program number followed by "Enter" (#)

The LCD display will show the program number and channel (user programs 1-99) or condition (pre-set programs 100-594).

On user programs, press the yellow "Clear" button to clear the channel before entering frequency (up to 9999Hz and then "Enter" (#).

Press "Step" (*) to change to next channel of that program.

On pre-programmed programs, press "Step" to go up one program.

To change program number, press the blue "Program button.

Outputting

To output the selected program, press the green "Output" button.

The LCD display will show the Program number and "Output>".

To stop output, press the red "Stop" button.

The LCD will then show the Program number and channel (user prog) or condition (pre-prog.)

Any button press will cause a short beep. If not, there is a fault.

Adjust output using the blue "Output" control.

The red LED array will show output level.

Adjust pulse duration if required using red "Pulse" control.

The yellow "Deviation" control gives an programmable regular frequency sweep on either side of the set frequencies.

The large Applicator, small Applicator, Energiser, Chroma-light units and Aqua units all use the 7mm jack socket. (second from left).

The foot plates use the two pin socket on the left.

The lasers use the 7 pin DIN connector (3rd from left).

Voltage setting for 120V/240V is by means of an internal switch which is accessible if the 4 screws holding the top lid are removed and the lid taken off.

USE OF THE UNIT AT THE WRONG VOLTAGE WILL RESULT IN DAMAGE

Use Earthed supplies for safety.

Do not obstruct the air intake grill on the rear of case or louvered grills on top of case, or overheating of the Amplifier may occur at high output levels.

Turn output off before switching off.

If unusual characters appear on the LCD display and/or if the machine "locks up", or if you lose some of your user programs after switching the machine off and on, it may be that the internal battery is flat (Approx. 5yrs) or that the memory has become corrupted due to power line surges.

The user memory can be cleared by pressing the yellow "Clear" button immediately after

Power up. The display should come up with "Clear RAM?". Press "Enter" (#) to confirm this.

The display will change to "Clearing RAM" for about 15secs before going to "Program?"

This reset will erase any user programs.

Manual Scan

It is possible to alter individual channel frequencies actively during output to experimentally fine tune commutations.

This feature is available during output of the 1-99 user programs but not the pre-programmed 100 upwards programs.

Press green Output button to start output and then press grey Mode button.

The LCD will show "Manual Scan?"

Press "#" and the LCD will show one of the 5 channel frequencies for that user program.

To increase the frequency by 1Hz, press the blue Prog. Button.

To decrease the frequency by 1Hz, press the yellow Clear button.

You will hear the harmonic frequency change in the output applicator.

To go to another channel, press the "*" (Step) button.

Press the grey Mode button to go back into normal Output mode.

***These alterations to your user program will be saved automatically to that program number.**

Active Program Step

Another feature you may use on the 1-100 user programs is Program Step where you may go up or down a program actively.

This could be useful if you need to go to another user program without interrupting a treatment.

Press green Output button to start output and then press grey Mode button twice.

The LCD will show "Go to next Program?"

Press "#" and the LCD will show one of the 5 channel frequencies for that user program.

To increase the Program number by 1, press the blue Prog. Button.

To decrease the Program number by 1, press the yellow Clear button.

You will hear the harmonic frequency change in the output applicator.

Press the grey Mode button to go back into normal Output mode.

Both Manual Scan and Active Program Step can be used during the same treatment output provided you press the grey Mode button to go back to normal output.

Pre-Programmed Commutations

100	ABSCESS	154	BACH FLOWER CERATO

Bioresonance - Price List

Description	Order Code	Price £
Mk 6 XXT-Pro Bioresonance Instrument	CYM-MK603	£2900.00
Mk6 Front panel/PCB upgrade to membrane panel (exchange)	CYM-UP01	£250.00
Mk 6 upgrade from Cymatic to XXX-Pro Bioresonance + service	CYM-UP02	£400.00
Mk 6 upgrade from Bioresonance to XXT Pro Bioresonance + service	CYM-UP03	£200.00
Mk 7 Instrument (with applicator and module of choice)	CYM-MK701	£750.00
Mk 7-Z Program modules (see CD section for codes)	CYM-MK701*	£50.00
Mk 8 CD Instrument (without CD player)	CYM-CDI01	£610.00
Mk 8 CD instrument (with player)	CYM-CDI02	£650
Bioresonance CDs	CYM-CD + X*	£50.00
Micro Applicator (Standard)	CYM-MIC01	£120.00
Micro Applicator (High Power)	CYM-MIC01	£120.00
Midi Applicator	CYM-MID01	£150.00
Maxi Applicator	CYM-MAX01	£150.00
Massage Applicator	CYM-MAS01	£180.00
Strap Applicator (l large source)	CYM-STP01	£160.00
Extender Strap (1Metre)	CYM-EXP01	£10.00
Strap Applicators - (Multiple sources)		
Strap Applicator - Wrist	CYM-STP02	£170.00
Strap Applicator - Wrist with Thumb hole	CYM-STP03	£180.00
Strap Applicator - Neck / Arm / Thigh (- narrow strap)	CYM-STP04	£190.00
Strap Applicator - Neck - wide strap	CYM-STP05	£190.00
Strap Applicator - Back - (small waist)	CYM-STP06	£250.00
Strap Applicator - Back - (large waist)	CYM-STP07	£250.00
Strap Applicator - Elbow	CYM-STP08	£180.00
Strap Applicator - Knee (small)	CYM-STP09	£180.00
Strap Applicator - Knee - (large)	CYM-STP10	£180.00
Aqua Unit Vibrational/electromagnetic unit for water	CYM-AQ01	£200.00
Energiser Vibrational/electromagnetic unit for solutions	CYM-ER01	£150.00
Bio-tique probes for direct electrical stimulation	CYM-CYT01	£100.00
Cymatrans Converter	CYM-CTQ01	£50.00
Red Bioresonance Laser module	CYM-RLR01	£400.00
Laser Control Unit	CYM-LCU01	£400.00
Reflexology Footbath	CYM-FOT01	£150.00
Facial Sauna / Inhaler	CYM-FAS01	£180.00
Acu-M Acupuncture Point Detector	CYM-ACU01	£35.00
Stim-P Acupuncture Point detector+Stim	CYM-STI01	£95.00
Excel Acupuncture Point Detector+Stim	CYM-EXC01	£100.00
Extension cable for applicators/accessories	CYM-XT01	£5.00
Extension cable for Laser	CYM-XT02	£10.00
Extension cable for Biotique (2-pin DIN)	CYM-XT03	£10.00
2 way splitter expander	CYM-XT04	£5.00

Bioresonance - Price List

Description	Order Code	Price £ (excl.VAT)
Chromatherapy probe (Infra Red 950nm)	CYM-CH01	£50.00
Chromatherapy probe (Infra Red 880nm)	CYM-CH02	£50.00
Chromatherapy probe (Ultra Red 680nm)	CYM-CH03	£50.00
Chromatherapy probe (Red 660nm)	CYM-CH04	£50.00
Chromatherapy probe (Hyper Red 640nm)	CYM-CH05	£50.00
Chromatherapy probe (Orange 630nm)	CYM-CH06	£50.00
Chromatherapy probe (Amber 600nm)	CYM-CH07	£50.00
Chromatherapy probe (Yellow 580nm)	CYM-CH08	£50.00
Chromatherapy probe (Green 565nm)	CYM-CH09	£50.00
Chromatherapy probe (Green 518nm)	CYM-CH10	£50.00
Chromatherapy probe (Blue 470nm)	CYM-CH11	£50.00
Chromatherapy probe (Blue 430nm)	CYM-CH12	£50.00
Chromatherapy probe (Purple)	CYM-CH13	£50.00
Chromatherapy probe (Ultra Violet)	CYM-CH14	£50.00
Chromatherapy probe (White)	CYM-CH15	£50.00
Selection of any 6 Chromatherapy probes	CYM-CH33*	£200.00
Set of all 15 Chromatherapy probes	CYM-CH44	£400.00
Chromatherapy Ultra Power (Infra Red 950nm)	CYM-CU01	£180.00
Chromatherapy Ultra Power (Infra Red 880nm)	CYM-CU02	£180.00
Chromatherapy Ultra Power (Ultra Red 680nm)	CYM-CU03	£180.00
Chromatherapy Ultra Power (Red 660nm)	CYM-CU04	£180.00
Chromatherapy Ultra Power (Hyper Red 640nm)	CYM-CU05	£180.00
Chromatherapy Ultra Power (Orange 630nm)	CYM-CU06	£180.00
Chromatherapy Ultra Power (Amber 600nm)	CYM-CU07	£180.00
Chromatherapy Ultra Power (Yellow 580nm)	CYM-CU08	£180.00
Chromatherapy Ultra Power (Green 565nm)	CYM-CU09	£180.00
Chromatherapy Ultra Power (Green 518nm)	CYM-CU10	£180.00
Chromatherapy Ultra Power (Blue 470nm)	CYM-CU11	£180.00
Chromatherapy Ultra Power (Blue 430nm)	CYM-CU12	£180.00
Chromatherapy Ultra Power (Purple)	CYM-CU13	£180.00
Chromatherapy Ultra Power (Ultra Violet)	CYM-CU14	£180.00
Chromatherapy Ultra Power (White)	CYM-CU15	£180.00
Selection of any 6 Chromatherapy Ultra Power accessories	CYM-CU33*	£800.00
Set of all 15 Chromatherapy Ultra Power accessories	CYM-CU44	£1700.00
6 channel Chromatherapy unit	CYM-CY01	£650.00
Single Colour Chromatherapy unit (X = Colour number)	CYM-CY0X*	£650.00

*Postal delivery free (Or Fedex 2 day delivery - charge to be advised)

*Currency in Sterling calculated on day of transaction , e.g. £1.00=\$1.90

*Instruments and accessories (except applicators) guaranteed for 3 years

*Applicators guaranteed for 1 year (then discounted exchanges)

*Payment by Credit Card or by Direct Bank Transfer

*Allow up to 28 days for delivery

*Prices are correct as of 1st March 2005 but we reserve the right to alter prices or specifications with notification
